1. General Information:

The instructions in this manual are intended for the end-user of the Twitter Summariser Progressive Web Application. The end-user can be described as a person who interacts directly with the Twitter Summariser application.

The user manual contains instructions on how to accomplish tasks for functionality that has been implemented. It will be updated concurrently with the development/evolution of the Twitter Summariser

2. Requirements:

- 2.1.1. Supported Browser:
 - Brave Browser
 - Google Chrome
 - Microsoft Edge

2.1.2. Supported Devices:

- Android
- i0S
- Windows
- Linux

3. Quick Start Guide:

3.1. Starting / Installation of the Application

- 3.1.1. Desktop / PC:
 - Open any browser of your choice and enter the following the URL: https://dmrrybm4zpppe.cloudfront.net/
 - Depending on the browser you used, one of the following sign-in screens shown in the figures below (1 3).
 - To install the application on your system, click on the icons circled in red on the figures below depending on the browser used.

3.2.2. Login:

• If you already have an account, type in the username and password and press the Sign in button.

3.3. Home Page

Tw

- After successfully signing in, you will be redirected to the home page as shown in figure 17.
- On the home page, type in the keyword that you want to search in the search bar.
- Select the number of tweets you want returned to use in the report (1 100), the filter for the tweets (Verified Tweets / non-replies), and how the tweets should be sorted (by likes /by comments / by retweets).
- Next, click the search button and the tweets should be displayed under the generate report button as shown in figure 18.
- Click on the "Generate Report" button to generate a report using the return tweets
- The page should look like figure 19 where a report is shown under the heading "Newly Created Report"
- Click on the report to enter draft mode to edit the report and the screen should look like figure 20
- In draft mode, press the pencil icon and the report can be edited using custom styles. Press the update button to save the changes.
