

Mozilla Persian report [#0]

4 December 2016

Mozilla Persian Team (L10n-fa)

<https://github.com/Mozillapersian/Planning>

Last 2 months:

- Translating Test Pilot
- Activate Test Pilot in Persian Community
- Firefox Android Bug
 - https://bugzilla.mozilla.org/show_bug.cgi?id=702845
 - https://bugzilla.mozilla.org/show_bug.cgi?id=1298379
 - https://bugzilla.mozilla.org/show_bug.cgi?id=925108
- Twitter Team account
 - Post community news and progress
 - Post Mozilla news
- Github initial website
 - Github Wiki page
 - Manage Team
- Translated Projects:
 - Firefox 52 ESR (Aurora) (%70)
 - Firefox for iOS 6.0 (%100)
 - Firefox for Android 52 (Aurora) (%100)

Future 2months plans:

- Updating twitter more often

We need to update our twitter account more often to communicate with Persian community based on our plans, events and activities. Now Reza and Arash and Sara have access to tweet in the Team account

- Help other Persian communities in other countries
 - Searching for active Afghanistan open-source communities

- Reaching out to people who are active in open-source projects in Tajikistan and Afghanistan

- Translating Mozilla News

Translate Mozilla News can be quite useful for attracting Persian Community. We plan to translate some important news in our blog and linking to the blog posts in our twitter account.

- More bug fixing
 - Continuing to work on the bugs that would come up
- Translating more
 - Finishing up Firefox 52 localisation
 - Working on the updates for Firefox Android and Firefox desktop
- RTL enhancement
- Updating Mozilla Weblog on github (for more important topics)
 - Define Theme and style
 - Define Pages (About , contact)
 - Planning for update

Participants and Authors:

- *Sara Mansouri*
- *Reza Habibi*
- *Arash Mousavi*
