		No, rework required	Yes, sufficient to proceed	Feedback
1) Quality of work	The student is able to design a computer science research project.	O	O	
2) Performance	The student is able to execute this research project.	O	O	
3) Report	The student is able to write a research report.	O	O	
4) Presentation & Defence	The student is able to present and defend the research project.			

Motivation for overall conclusion

For continuation of the project the subjects 1) Quality of work, 2) Performance and 3) Report should all have a "Yes, enough to proceed". In case of 1 or more "no" judgements, the project can only continue if the supervisor has sufficient argumentation to make an exception.
