# The GOV.UK Prototype Kit
v8.1.0

This kit lets you rapidly create HTML prototypes of GOV.UK services.

It contains all you need to prototype anything from simple static pages to complex, data-driven transactions.

## About this page

We recommend you add links to your prototype to this page, rather than delete it. You'll find this page in the kit at '/app/views/index.html'.

You can change the service name by editing the file '/app/config.js'.

## Examples and documentation

- Example pages and documentation (/docs/tutorials-and-examples)
- GOV.UK Design System (https://design-system.service.gov.uk)
