Full Stack Web Developer | 18 March - Working

In my role, I spearhead the development of the OpenAI/GPT library using Hono.js, Jsonnet, and ESBuild, all written in Typescript. I'm adept at employing advanced Typescript packaging and testing tools such as Jest, Vitest, facilitating efficient and reliable code management. Moreover, I specialize in customizing the build and deployment libraries of Hono.js and Next.js, enhancing the adaptability and functionality of our infrastructure components. My expertise lies in leveraging advanced JavaScript build tools to streamline development processes and optimize system performance
