## EDUCATION

---

2020 - 2024 **B.Tech in Computer Science** at Global Engineering College [RGPV] (CGPA: 8.42)  
2020 **Class 12th** at Kendriya Vidyalaya O.F.K [C.B.S.E] (67.2%)  
2018 **Class 10th** at Kendriya Vidyalaya O.F.K [C.B.S.E] (77.2%)

## WORK EXPERIENCE

---

### INTERN - ITETHIK

Nov 2023 - April 2024

- Revamped an outdated website with Next.js, increasing loading speed by 40% and enhancing user satisfaction. Contributed to multiple projects in HTML, CSS, and JS, driving further improvements.
- Implemented comprehensive SEO strategies and wrote detailed technical content to increase website traffic and customer engagement, which contributed to growth and visibility for the company.

## PROJECTS

---

### Port Killer (JavaScript, Tauri, Rust)

[Link](#)

- Developed a desktop app to efficiently terminate processes on specified ports, simplifying port management for developers and system administrators. Reduced termination time by 90%.

### Uni-Hustle (Next.js, MongoDB)

[Link](#)

- Developed a platform for college students to share tips, guides and experiences, assisting juniors and batchmates in navigating college life.
- Offering dedicated college subforums categorized by branch and semester, ensuring targeted discussions.

### Subu (Next.js, MongoDB)

[Link](#)

- Developed a social platform empowering women to share and celebrate their achievements, both big and small, fostering a supportive community.
- Encouraged women to embrace the little things, share their progress, and inspire others.

## TECHNICAL SKILLS

---

**Languages:** Java, Python, JavaScript

**Frameworks / Libraries:** NextJs, React, Tailwind CSS, Bootstrap

**Deployment / Tools:** Git, GitHub, Node.js, Express.js, MongoDB, Firebase, Vercel, Linux, Figma

## ACHIEVEMENTS

---

- Achieved third position at the EmpowHer Hacks hackathon. [Link](#)
- Led a team of three during Buildspace Season 5 and built a platform for college students to share/get advice, resources, and help. [Link](#)
- Achieved a top 1% ranking in MLH Global Hack Week: Open Source Week by hosting Hacky Hangouts, attending live sessions, and actively participating in the open-source community. [Link](#)
- Secured a spot in the campus-level hackathon at Global Engineering College (among 42 teams). [Link](#)
- Participated in HackByte 2023 Hackathon hosted by IIIT DM. [Certificate](#)
- Completed Hacktoberfest [2020](#) and [2023](#) by contributing to multiple open-source projects.

## ACTIVITIES

---

- Frequently publishing technical blog posts on [dev.to/skidee](#) and [skidee.hashnode.dev](#)
