Site Health

Should be improved

Status Info

Site Health Info

This page can show you every detail about the configuration of your WordPress website. For any improvements that could be made, see the [Site Health Status](#) page.

If you want to export a handy list of all the information on this page, you can use the button below to copy it to the clipboard. You can then paste it in a text file and save it to your device, or paste it in an email exchange with a support engineer or theme/plugin developer for example.
